Subject: The Bodybobber

Dear John:

I am writing this short note to let you know how pleased we are with your product the Bodybobber. We have performed an evaluation on it over the last two weeks and have found it to be very well received with our consumers and physical therapists.

As you know, part of our philosophy in aquatics is to "empower people with physical disabilities to reach their full potential". The Bodybobber provides consumers support and stability with minimal to no assistance from staff. Consumers are able to function independently in an aquatic setting. The Bodybobber allows a greater range of motion than the other flotation devices we use. It has also been a great tool for our low back and spinal cord injured consumers.

We are very pleased with your product and wish you continued success.

Sincerely,

A handwritten signature in black ink, appearing to read "Christine Shidla". The signature is fluid and cursive.

Christine Shidla
